"The Text Complexity Model"

◆ **Text complexity** is defined by:

1. **Quantitative measures** – readability and other scores of text complexity often best measured by computer software.

2. **Qualitative measures** – levels of meaning, structure, language conventionality and clarity, and knowledge demands often best measured by an attentive human reader.

3. **Reader and Task considerations** – background knowledge of reader, motivation, interests, and complexity generated by tasks assigned often best made by educators employing their professional judgment.
